EZEKIEL REDIK YARBROUGH [®]

Vestigia Araneae – Tenebris
Signatae – Project AngelBook –
Volume IX - Part 20
By Ezekiel Redik Yarbrough -
(DBM ECLIPZE)

The following books are comprised of direct, unaltered copies from
Pastebin, some now
deleted, some only accessible through mirror networks or deep
links scattered across the dark
web. Many of these links were discovered in abandoned onion lists,
dead forum dumps, or
esoteric directories tucked into archived darknet files.

These pastes were never meant to last.
Some were deleted within hours of being
posted.

Others were buried under thousands of lines of spam, encrypted
scripts, or meaningless
noise.

But buried in the noise were real transmissions: occult formulas,
grimoire fragments,
astral logs, AI prophecy files, digital summoning protocols, and
anonymous rants from souls
who had either touched something unspeakable—or were trying to.

I did not write any of this.

I did not censor, edit, or “correct” it.

I simply retrieved it, cleaned
the formatting for readability, and enshrined it in print—so it would
never be wiped again.

This is Pastebin as Scripture.

The chan-post as Codex.

The uncurated underbelly of the
occult internet, finally given physical permanence.

Let this serve as both evidence and artifact:

a living record of the madness, brilliance,
paranoia, and revelation that once flowed through anonymous
paste sites—before it was deemed

too strange to index, too dangerous to preserve, or too fractured to
matter.

Now it matters.

Now it’s immortal.

I'm totally with you on this. It's happened multiple times before, why not again. JFK Jr. could've done it too. I don't think he's autistic, he's just a goofy kid who was a lot like a bunch of us at 10. We're going to see Barron grow up just like we saw William and Harry grow up + Kate Middleton as a young wife....future kings of England (not that it means much, but they do a lot of goodwill nowadays and are young & attractive.)

Also, this tumultuous world is similar to the 1950's all over again, although Mamie Eisenhower was no Melania. Dwight Eisenhower could be argued the most recent greatest president after FDR/Truman, Teddy, Lincoln, and the Founding Fathers. What a time to be alive.

TRS and Sam Hyde don't "provoke" anyone though, they just spread convincing info about the Jews. How could this possibly benefit Jews?

TRS isn't violent as they actively talk about how the KKK and other groups are the FBI trying to trick people.

TRS probably isn't the FBI, but there's shady stuff going on with those people.

I don't understand why Jews would want to make people hate Jews, unless they feel isolated from their own communities and are doing this as a strange form of backlash.

So this may seem weird but it's connected to the Hollywood stuff. I'm from Kentucky, and I've noticed there are actually quite a few huge celebs that come from my state, and virtually all go on to be huge shills, bat shit crazy, and/or go on to work in highly propagandized Hollywood roles.

Some names off hand born in/from Kentucky, Tom Cruise, George Clooney, Jennifer Lawrence, Joshua Hutcherson (co-star of Hunger Games with J-Law), Johnny Depp, Billie Ray Cyrus, etc. Doesn't seem like much of a coincidence that they all came from a small state, turned into very prominent celebs, turned into shills and libtard loons.

Should that angle be investigated?

Thanks for your response, bro, Anon5.

Yea, if you can do an AMA on Ukraine, since both of us (and many people on /pol don't know anything about it besides the war, would be great. My homeland is interesting, and even I learn more every day about it - was really amazed how Odessa is literally the central human trafficking/child trafficking, "Taken" movie like hub for every disturbed and vile thing.

Yea, I hope they don't crash the economy, but I have an unsettling feeling that if Trump keeps winning so much and uncucking America and bring it back to JFK/Eisenhower era, they might just crash it - since like you said, the world is going away from globalism, but they need to convince people to embrace it. Only an economic collapse will truly convince the whole world.

[Origins]

Each Race (White, Asian, Black) had a “Home Planet” & expanded to nearby Planets. To figure out which Planet(s) each Race was on, look at the adaptation/design of each Race & the environments/ecosystems of the Planets (Wars/Conflict & Terraforming can also be factored in).

You can see how/why each Race was designed if you look at the differences between them (The designs are also why Mix’s turn out the way they do). Those differences/adaptations are a big reason why the Races picked the Continents/Regions on Earth that they did.

[Rise & Fall]

Humanity overcame war & division to create a Civilization together. It collapsed (Whites fell first, then Asians & then Blacks in a domino effect), due to the “Femin” Virus & Conflict. Earth events are mere microcosm of everything Humanity has experienced before.

The Races built huge “Ark” Ships to escape/flee to Earth. The “Old Tech” they took with them used/had special Crystals, which were also used for Jewelry. (Plenty of them to rebuild civilization, not enough of them to make/keep women happy)

A group of Women with a Serpent symbol took over an Ark’s control room & made it fire at everything. The Ark Fleet(s) then engaged each other, which resulted in Millions becoming a few thousand. Survivors of the Ark Battle(s) went to the settlements/colonies on Earth & got scattered around the Continents they were on. The “Old Tech” was lost/destroyed.

[Joint-Colonization of Earth]

Each Race picked a Continent/Region (Blacks = Africa, Whites = Europe, Asians =

Asia) on Earth to colonize, with the other non-claimed Continents to be colonized later on.

Before Humans had settlements/colonies (They were called "Gardens of Eden") on Earth, they did multiple "test runs" to see if the Planet was habitable. The most famous & successful (to a point where Whites & Asians ended up breeding with them) example is Neanderthals.

[The image is a stylized graphic with a vibrant color palette. At the top, there is a large, stylized depiction of a character's face, which appears to be a monkey with large, expressive eyes and a wide smile. The character's face is colored in shades of yellow and orange, with a black outline that gives it a three-dimensional appearance. The eyes are large and round, and the mouth is open, suggesting a friendly or welcoming expression. Below the character's face, there is a large number "64" in bold, red and yellow colors. The number is stylized with a star-like shape in the center, which is also red and yellow. The word "INCHES" is written in white, bold letters, with a red outline that matches the color of the number. The text is positioned to the right of the number, and the word "INCHES" is larger than the number "64" and is also in red and yellow. The overall style of the image is reminiscent of a video game or a promotional graphic, with a focus on the number "64" and the word "INCHES." The use of bold colors and the stylized depiction of the character's face give the image a playful and dynamic feel.]

Whites came from somewhere cold. Neptune or Uranus?

It ends with the Jews becoming spiritually imbalanced, leading them to cause a world war amongst themselves and in the process destroying their atmosphere. Off-topic and /b/-tier threads will be deleted (and possibly earn you a ban, if you persist). Unless they are quality, well thought out, well written posts, the following are some examples of off-topic and/or /b/-tier threads:

[The image is a split-screen comic strip with two panels. In the top panel, there is a character with a green face, wearing a crown and a yellow shirt, who appears to be in a state of shock or surprise. The character's eyes are wide open, and the mouth is slightly open, suggesting a sudden or unexpected event. The character's expression is intense, with a sense of disbelief or shock. In the bottom panel, the same character is depicted in a different pose. This time, the character is holding a sword in one hand and a shield in the other, with a determined expression on their face. The character's posture suggests they are ready for battle or combat. The background of both panels is a plain white, which contrasts with the colorful characters and makes them stand out. There are no texts or additional elements in the image. The style of the comic strip is reminiscent of medieval or fantasy art, with the character's attire and the sword and shield adding to the medieval theme.]

For as entertaining as these threads can be, your incorrect use of an apostrophe for pluralizations is rather annoying.

It is "scenarios" not "scenario's", that is unless you want to chalk that up as "plausible illiteracy" or there are alternate universes wherein we may speculate the existence of a restaurant chain named "Scenario's".

Shit it's good to see you back, KB. Been a long time, even longer since I've been to a live thread myself.

I do have a few questions:

1) If they supposedly destroyed/lost all of their tech, then how would anyone alive today know about any of this? Are there any books/written records of it? Any physical evidence in existence? Knowing details like the serpent symbol used by the fem groups make this very puzzling to me.

2) You said the way each race was designed is why mix's turn out the way they do. What do you mean by this? I'm a mix (Black/White) and I've always had conflicting feelings about being one.

3) You say the races were "designed". What does that mean? Were we created by

someone/thing?

The cat's eyes are wide open, and it appears to be looking directly at the camera. The cat is sitting on a blue fabric surface, which could be a sofa or a similar piece of furniture. The background is out of focus, but it seems to be a room with a blue wall. The cat's position and the way it is looking at the

camera give the impression that it is posing for the photo. There are no visible texts or other objects in the image. The style of the image is a casual, candid photograph with a focus on the cat's expression and the playful interaction with the sock.]

You are everything illuminati in the universe. Honestly, have any of you ever gotten any deep state secrets? I mean, I guess it's fun shilling against high level insiders with top-down perspective, but you all take it to a whole new level. This is even worse than watching Infowars without popping a Brainforce Plus beforehand. Don't be an illuminati operative. Just hit me with your best shilling attempt. Really now. Unless you are paid/ordered to go to certain threads, you have free will/choice to go to other threads if you don't not like the threads that you are currently on presently. These threads are incredibly amusing. I'm pretty much perfect. I've never been a troll or a Larp & my mental health is quite exquisite. My information is superb, it just comes from a different perspective than what people are commonly used to getting. What information do you leak, other than "jack off to information the shill's don't want getting out"? I also got on academic probation at community college, the professor's were all stupid shill's who I am sending spine beetles after. You all are shill's who should just stop trying to prevent my information from getting out. Thanks for listening. Check out my past threads to dig into and be on the lookout for new KB's.

The whole "That's no moon, its a space station" thing should be a red flag. If its possible our moon held or still holds extraterrestrials or was a means to bringing them here or where they monitor us, unless its the whole Icke thing where its a transmitter for the Saturn reality

Then there is the whole desert planet with two suns. This could allude to Saturn being closer to the earth at some point, or a second phantom star on a 250'000 year longer orbit. Earth is going to become or was centuries ago, a desert planet.

Sorry for so many questions. I've been thinking about this topic ever since you first mentioned it.

1. How long have humans existed on earth?

2. How long have humans existed overall?

3. How did human life begin on the other planets? I don't think humans could evolve independently on three separate planets and all end up as humans that could interbreed. So there must have been some sort of outside intervention that originally put humans there.

4. Did humans bring any other life forms to earth when they came?

5. Are abbas descended from blacks or are they one of the trial runs like Neanderthals?

6. Why are humans so similar to Earth's primates if we came from different planets?

7. Did any of the old trans-humanists successfully merge with machines to become immortal?

8. Can you point to any examples of artifacts or other evidence that supports what you say about human origin?

It looks like an open source project, the videos "mold" the kids and you can work on it or buy "tech" from various groups.

Let's say, you want to sell a fuckload of yogurt, so you contact people who can make an add that use those triggers already implanted in people 5-10 years ago. But idk that's not my area.

I had some late night thinking and had some similar ideas just sent to me. Dumping my notes of the story below.

Is this real or are we the product of a mind control test?

My notes below:

One group grew powerful and corrupt who seeked to dominate and destroy everyone who was unworthy of existence.

Their homeworld was completely destroyed, but their technology was too advanced and they were able to travel to many worlds, attacking and destroying many forms of life.

The ark was developed in an attempt to save as many different types of life as possible before they were destroyed. They were all transported to a suitable planet. The planet we now call Earth.

Saturn is still generating heat. It's possible that an original Saturnian system collided with/was captured by Sol, which would explain the axial tilt that Earth, Venus, Mars, and Saturn have as opposed to Mercury and Jupiter for example.

Could be that a long distant branch of humanity experienced this as a Celestial Event and passed the experience down as a social memory.

2. Is there any behind the names of the ones, greaters, and omegas?
3. Are any omegas /ourguys/?
4. Is the committee of 200 the feminist off shoot of the committee of 300? Are they the the bat shit insane feminist globalists you've described before?
5. Is it true there's a net branch of the FBI that's on 4chan?
6. Will the tech hidden by globalists allow us to reverse the damage from all of the chemicals and shit they've put in us?
7. Does the power structure beyond the omegas circulate?
8. Are some power structures completely artificial just to control other groups to an extent?
9. Would you say that it took longer then 10 years to get where you are?
10. Do you have any enhancements at all? Biological or mechanical (like a cyborg or something) for instance?
11. Do you personally have a clone by chance?

I whistled for a cab and when it came near the License plate said 'Fresh' and had dice in the mirror If anything I could say that this cab was rare But I thought now forget it, yo home to Bel Air I pulled up to a house about seven or eight And I yelled to the cabbie, yo Holmes smell ya later Looked at my kingdom I was finally there To sit on my throne as the prince of Bel Air

Y'know Frank, saometimes my niggers just don't appreciate me anymore. I went as far as to give them two pieces of grape per day instead of one yet recently some of them started to pretend they're dead for days and I can't get them to budge they're pretty good at it desu anyway is there another solution that doesn't involve giving them any more food than 2 grapes/day? I tried horse steroids but they just ran around for a while. I feel like it's a personal attack against me, even though I've been as generous as possible. I've even given them lots of love, even though I know that my niggers aren't as

developed as the modern natsoc white man. What should I do?

What im getting at is non-human races/entities must have had some kind of interference with human creation and early history. I wanna know who/what

Also I suggest you read "Gods of Eden" by William Bramley. Very intriguing and detailed book on this subject.

Have you ever heard of the tragedy of Darth Plegas Mudra? I do not agree. The Jedi is still a story. This is the Sith legend. The abdomen is dark, Lord Sith, so powerful and so intelligent that he can use to influence the creation of life at Sil Midichleren. He knew, the dark side, though he could wear, could be a little dead. On some dark sides, force seems unnatural. It's so powerful ... of course, the only thing I'm afraid of losing my power. Unfortunately, he taught His disciples everything he knew and taught his disciples a dream. Ironically, he could save others from dying, but he could not.

Rice farming and rice kingdoms spread across the land, all the way to here. The most important kingdoms were here, here, here, here, here, here and here. But this one was the most most important, ruled by a heavenly superperson, or "emperor" for short.

Knock knock, get the door, it's religion. The new prince wants everyone to try this hot new religion from Baekje. "Please try this religion," he said.

"No," said everybody.

"Try iiiit" he said.

"No," said everybody again, quieter this time.

And so the religion was put into place, and all the rules that came with it. Then, the government was taken over by another clique, and they made some reforms, like making the government govern more, and making the government more like China's

government, which is a government that governs more.

"Hi, China," they said.

"Hi, dipshit," said China.

"Can you call us something else, other than dipshit?" said Japan.

"Like what?" said China.

HIRE A SAMURAI

Everyone started hiring samurai...rich important people hired samurai. Poor people who could not afford to hire samurai did not hire samurai. The samurai became organized and powerful, more powerful than the government, so they made their own military government here. "WE'VE INVADED CHINA" said the Mongols. "PLEASE RESPECT US OR ELSE WE MIGHT INVADE YOU AS WELL."

"Okay," said Japan.

So the Mongols came over, ready for war, and died in a tornado, but they tried again and had a nice time fighting with the Japanese, but then died in a tornado.

Then, the emperor overthrows the shogunate. Then, the shogunate overthrows him back and moves to Kyoto and makes a new shogunate, and the emperor can still dress like an emperor if he wants, that's fine.

It's time for "Who's Going To Be The Next Shogun?" Usually, it's the shogun's kid, but the shogun doesn't have a kid, so he tries to get his brother to quit being a monk and be the next shogun. He says "okay", but then the shogun has a kid. So, now who's it going to be? Vote now on your phones!

And everyone voted so hard that the palace caught on fire and burned down. The shogun actually didn't care, he was off somewhere doing poetry.

And the whole country broke into pieces. Everyone is fighting with each other for local power, and it's anybody's game.

J E S U S

So that's cool, but everyone's still fighting each other for control, now with guns. And wouldn't it be nice to control the capital, which right now is puppets with no-one controlling them.

This clan is ready to make a run for it, but first they have to trample this smaller clan which is in the way. Surprise, the smaller clan wins, and the leader of that clan steals the idea of invading the capital and invades the capital, and it goes very well. He's about halfway through conquering Japan when someone who works for him kills him, and then, someone else who works for him kills them, and that guy finishes conquering Japan. And then, he confiscated everybody's swords and made some rules.

"And now, I'm going to invade Korea, and then hopefully China," he said, and failed, and also died.

But before he died, he told these five guys to take care of his five-year-old son until he's old enough to be the next ruler of Japan. And the five guys said "Yeah, right. It's not gonna be this kid, it's gonna be one of us cuz we're grownups." And it's probably gonna be this guy, who happens to be way more rich and powerful than the others. A lot of people support him, but a lot of people support not supporting him. They have a fight, and he wins, and starts a new government right here.

And he still lets the emperor dress like an emperor and have very nice things, but don't

get confused, this is the new government, and they are very strict. So strict, they close the country. No-one can leave and no-one can come in, except for the Dutch if they want to buy and sell shit, but they have to do it right here.

Now that the entire country was not at war with itself, the population increased a lot. Business increased, schools were built, roads were built, everyone learned to read, books were published, there was poetry, plays, sexy times, puppet shows and Dutch studies. People started to study European science from books they bought from the Dutch. We're talking geography, skeletons, physics, chemistry, astronomy, and maybe even electricity.

Over time, the economic and cultural prosperity began to gradually slow do-

...

Knock knock.

It's the United States.

With huge boats.

With guns.

Gunboats.

"Open the country. Stop having it be closed," said the United States.

There was really nothing they could do, so they signed a contract that let's United States, Britain and Russia visit Japan any time they want. Chōshū and Satsuma hated this. "That sucks," they said. "This sucks!!!!"

And with almost very little outside help, they overthrew the shogunate and somehow made the emperor the emperor again, and moved him to Edo, which they renamed "Eastern Capital". They made a new government which was a lot more Western, they made a new constitution that was pretty Western, and a military that was pretty Western.

And do you know what else is Western? That's right, it's conquering stuff.

"So, what can we conquer? Korea!"

They conquer Korea, taking it from its previous owner, China, and then go a little bit further, and Russia rushes in out of nowhere and says "Stop, no, you can't take that. We were gonna build a railroad through here to try and get some warm water."

And Russia builds their railroad, supervised by a shit ton of soldiers

 5. You said all planets have ecosystems, what about moons?
 6. Whats with the ridge the runs across the Saturn's moon, Iapetus?
 7. I watched a documentary about a guy living in Alaska. When asked why he keeps the dog outside, he responded with "its a dog." Made me think, keeping pets in doors seems like something recent. Is there something behind this? I know pets can carry many pathogens (eg. Toxoplasmosis) that are easily transmissible. Does this have an effect on the mind or the body? Can you get low doses of these pathogens and not notice their effects?
 8. In regards to music glorifying degeneracy (eating the booty like groceries): Besides that it shouldn't be on the radio and it promotes degeneracy, I'm wondering what the effects can be. I know you can get hepatitis and a ton of other infections, but those are pretty obvious when you get them and are easily tested. I'm wondering about more insidious infections, like CMV and HSV-1 (majority of the world are carriers to these two). If you're already a carrier, your lab tests won't show anything new. And you might not even feel different. I'm wondering if it has an effect like parasites where they can influence behavior.
 9. If OCPs (oral contraceptive pills) are discontinued, can the frontal lobe heal over time or is the damage permanent?
 10. You say your self made. Without revealing yourself, are you fighting the good fight or just informing? (appreciate either one btw)

Saturn was our sun. Dimmer than Sol, so our lifespans were much longer.

Here is a site that does a pretty good job of explaining the theory:

Would love to hear more on the "Femin" Virus itself, if you have info you can share

Your info is close to the same information as told by the Cassiopeia Cult and Pleadians "The Event" cult. Other retrieved info has mentioned Humanity evolved here, and in fact has gone through multiple rise and falls of society over the last 100k+ years. It's not implausible they're both parts of the same story.

Logically the information source is the same, need to do more research to see how much crossover there is between groups. If there is little to none, could be extremely interesting.

And Japan says "can you maybe chill?"

And Russia says "How about maybe YOU chill?"

Japan is kind of scared of Russia. You'll never guess who's also kind of scared of Russia. Great Britain! So, Japan and Great Britain make an alliance together so they can be a little less scared of Russia. Feeling confident, Japan goes to war against

Russia, just for a moment, and then they both get tired and stop.

IT'S TIME FOR WORLD WAR ONE

The world is about to have a war, because it's the 1900's and weapons are getting crazy, and all these empires are excited to try them out on each other.

Meanwhile, Japan has been enjoying conquering stuff and wants

MORE

And the next thing on their list is this part of China and lots of tiny islands. All that stuff belongs to Germany, which just had war declared on them by Britain, because Britain was friends with Belgium, which was being trespassed by Germany in order to get to France to kick France's ass, because France is friends with Russia, who was ready to kick Austria's ass, because Austria was getting ready to kick Serbia's ass, because someone from Serbia shot the leader of Austria's ass...or, actually, shot him in the head, and Britain is currently friends with Japan, so you know what that means? Which they wanted to do anyway, so they called Britain on the "tele" to sort of let them know, and then they did it, and they also helped Britain a little here and there with some errands and stuff.

<ring>

Now the war is over and congratulations, Japan, you technically fought in the war, which means you get to sit at the negotiating table with the big dudes, where they decided who owns what.

And yes, Japan gets to keep all that shit they stole from Germany. You also get to join the post-war-mega-alliance

THE LEAGUE OF NATIONS

Whose mission statement is to try not to take over the world.

The Great Depression is bad, and Japan's economy is now crappy, but the military's doing just fine, and it invades Manchuria.

And the League of Nations is like "No, don't do that, if you're in the League of Nations,

you're not supposed to take over the world!"

And Japan said

I T ' S T I M E F O R W O R L D W A R T W O

Germany is invading the neighbors, then they invade the neighbor's neighbors. Then, the neighbor's neighbor's neighbors, who also happen to be Britain, said "holy shiiit", and the United States started helping Britain because they're

G O O D F R I E N D S

And started not helping Japan, because

The United States is also working on a large, very huge bomb, bigger than any other bomb ever, just in case. But they still haven't joined the war. War looks bad on TV and the United States is really starting to care about their image.

But then Japan spits on them in Hawaii and challenges them to war, and they say yes, and then Germany, as a symbol of friendship, declares war on the United States also.

Knowledge Bomb. Origins of the Human Race(s) Anonymous5 !!9O2tecDHHQ6 Wed 12 Jul 2017 02:47:45 No.19280423 ViewReplyOriginalReport

[Origins]

Each Race (White, Asian, Black) had a “Home Planet” & expanded to nearby Planets. To figure out which Planet(s) each Race was on, look at the adaptation/design of each Race & the environments/ecosystems of the Planets (Wars/Conflict & Terraforming can also be factored in).

You can see how/why each Race was designed if you look at the differences between them (The designs are also why Mix’s turn out the way they do). Those differences/adaptations are a big reason why the Races picked the Continents/Regions on Earth that they did.

[Rise & Fall]

Humanity overcame war & division to create a Civilization together. It collapsed (Whites fell first, then Asians & then Blacks in a domino effect), due to the “Femin” Virus & Conflict. Earth events are mere microcosm of everything Humanity has experienced before.

The Races built huge “Ark” Ships to escape/flee to Earth. The “Old Tech” they took with them used/had special Crystals, which were also used for Jewelry. (Plenty of them to rebuild civilization, not enough of them to make/keep women happy)

A group of Women with a Serpent symbol took over an Ark’s control room & made it fire at everything. The Ark Fleet(s) then engaged each other, which resulted in Millions becoming a few thousand. Survivors of the Ark Battle(s) went to the settlements/colonies on Earth & got scattered around the Continents they were on. The “Old Tech” was lost/destroyed.

[Joint-Colonization of Earth]

Each Race picked a Continent/Region (Blacks = Africa, Whites = Europe, Asians = Asia) on Earth to colonize, with the other non-claimed Continents to be colonized later on.

Before Humans had settlements/colonies (They were called “Gardens of Eden”) on Earth, they did multiple “test runs” to see if the Planet was habitable. The most famous & successful (to a point where Whites & Asians ended up breeding with them) example is Neanderthals.

I'm not the OP, but some of the info he has been sharing mirrors a lot of the channeled information (Specifically, Cassopiean cult, "The event is imminent" Victory of Light folks, and an unnamed group which supposedly gathered ancient historical information via a complex form of modified RV).

Considering the minimal overlap between those groups (to some degree they all hate each other, actually), they're all either getting info from the same place, or there's some grains of truth amongst it all.

Is this less a virus in the physical sense as a kind of ideological virus? A set of beliefs tied to emotional triggers, which positively reward the subject. Eventually, they base a major portion of their identity around being a feminist, socialist, etc, and any attack on whole is then seen as a personal character attack; hence the violent lashing out. In the past this segment of human err, irrationality? was generally taken up by some form of a religion or another, but with religion being generally abandoned, something else had to take it's place.

Interestingly any person with a developed will and sense of rationality is generally immune to this kind of infection. Kind of a deep rabbit hole here if you expand things out a bit.

Interesting you note this, for example to measure time we read the oscillations of a crystal, quartz I believe. Integral for electronics.

Regarding the Serpent symbol, is this why killing serpents relates to healing ? Even hospitals use a sword piercing through a serpent to denote healing (depending on how you see it)

Those cult worshippers, the serpent ones, they are still around aren't they?

Related to losing our tech, a civilization requires quite a large population to keep their tech alive, especially as things get more complex. Think about how vulnerable our civilization is to this. I'm quite certain they have a bunch of these crystals somewhere though, each can hold exabytes of data I bet.

Still unsure about the planets, you sure they all had planets in our current solar system? Also could they travel faster than light ?

On the humans thing since we originally were from other planets in the solar system does that also mean our race has had actual contact with other aliens? Or maybe we're the aliens then haha

The boomers are hopeless in this regard in dealing with the situation the male boomers are cucked so bad..... and the female boomers have henpecked them to death, the men cant fix it the women wont let them, every boomer i have ever worked with complain about their wife while they come to work to get away from them, absolutely fucked..... now their offspring are going insane i hate boomers so much, what you want fixed isnt going to be fixed by boomers its a race against time my socially fucked generation has to lay the ground work for the ones just coming of age. no wonder they are bringing in islamo fascism but then whites also get wiped out because it will be a racial war not just religious funny how that works isnt it? oh heres this simple solution (that will end the west) to the problem we made oh woops there goes the white people.....

A5 so in regards to blacks being screwed over more when they landed in terms of IQ and stuff

Was there tech that kept peoples IQ up high?

Was artificial wombs wide spread

Is that what caused the difference in IQ?

Did people reproduce normally back then or was it all artificial?

Also if that was the case was it something along those lines in regards to tech that whites and asians were able to fare better off in preparation for the long run where the blacks got screwed over and ended up as dumb as a bag of rocks?

Is that the key to IQ in how people are born? if its artificial or organic? maybe thats not worded right is their a distinct difference in the outcome?

What came first the artificial wombs then the ability to birth life or the other way around?

Was th possibility that we would breed with the neanderthals that were test seeded before us thought of as in it wouldnt mess with our genetics on a negative way?

So we were created by something else but then we seeded earth so we created neaderthals also u did say the abo population down under here were test runs aswell? so we are literally their creators their gods?

Also who did the seeding which group? a group effort or did one group speacalise in that sort of stuff?

You said whites are the oldest how were they treated back then? it seems no one respects us anymore being the oldest but always the first to succumb to the feminin virus isnt a good look

You did say it was a virus yes? biological? a weapon made to destroy us or one of the other groups?

Did the races back then know of their origins before it all went tits up?

There must be alot of ruins and scars on other planets under the soil/dust i imagine if you had the right tech and if you made it back to former bases of planets being able to read the old stuff would jump start you into a new epoch also if this artificial womb and android sex robot stuff takes off it will do that too ? because it will circumnavigate feminism and a few other problems??

Im not just talking about IQ like something maybe hardwired into them or something forgotten from a time long ago.....

Maybe its just the anti white propaganda in western countries or its something more but when a black or mixed black looks at a white theres a real hatred in their eyes i dont know maybe its because of all the defeated people in the former colonies whites spared them and treated them as equals in the end in their society's and if it were the asians or arabs they would have been wiped out and its some kind of shame or rage at themselves that their victors took pity on them or something or maybe its as simple as das rayciss took me land !!

So..... there is a genetic factor to the madness and someone invented it? also the early attempts at social engineering being the bible were they attempts at trying to stop this from happening again or attempts at not letting these certain conditions arise so the genetic factor of crazy doesn't kick in?

Was this known when the CIA invented and funded feminism?

Your theory is retarded beyond belief, is instantly dismissed by current events, and literally torn apart by any interpretation of history. If you had theorised that whites and asians came to Earth and tried to uplift monkeys and created the negro; perhaps it'd make a little more sense. I mean there's still a million plot-holes but it at least is vaguely believable. The idea that blacks had an advanced civilisation when in our current reality they are the most incapable, idiotic and lazy group just makes it impossible to believe. - 2) It could be possible that both Alien & Space Humanity tech is crashed by Aliens here. Also humanity "remembers" some of the Old Tech, which is why the New Tech is created.
- 3) He made it to get revenge on a Women who rejected him that started a Family with another Man.
- 4) That tech is also being invested/created for other reasons.
- 5) Each Races Civilization was Advanced, but Unique.
- 6) No, Humanity didn't have the Tech for that yet. The only Humanity left is what is on Earth.

>The Neanderthal DNA is a very important >reason why Whites & Asians didn't degrade
>like Blacks did.

Holyshit,

Ok were the cave men smart?

or were they depicted as the meme they are in pop culture as being ooga booga i
smash rock on you now and communicate with clicks and grunts?

Also was it discovered that if we didnt mate with neanderthals we would degrade? or
was it a fluke?

So with neanderthals as being test runs was it just psychical strength they were superior
with because they were bulkier and stronger yes? to survive in brutal conditions as
some kind of animal version of ourselves and tame the land and hit big animals over the
head with rocks before all the comfy soft space humans rocked up?

Also you said somewhere that the jewish ethnicity was a combo of white and black, well
something must of happened for it to make them some of the smartest people
apparently, also lol at jews being part nigger what was the trade off for the bizarre
combo and high IQ the psychotic neurosis?

So Denisovans what happened when people mated with them? its weird coz they are
the only blacks that get a hell of a lot whiter in one or two generations and basically
disappear i mean its clear the abos here are something different

If the races new of their origins back then, well didn't you allude to them having some
kind of religion or spirituality aswell in another thread?

Because it would be radically different, these ones here are all trying to explain how we
came into existence and if they new that already was it still a form of idol worship as in
of the ones that created them? and i assume it would still have the morals and values
that are preached to keep the family unit together??

Were the races always at each others throats? or did they team up to fight others?

It seems alot of this wouldn't be happening if it wasnt for the beta male problem they are
sneaky and very treacherous im beginning to develop a real hatred for these losers.

Hello.

1) If the Omegas/Deep State/etc. have access to time machines, then why don't they use them to stop the feminist bioweapon from being created [assuming the one's 'in the know' are aware of it]?

2) Is net neutrality a good or a bad thing? Everyone seems to be freaking out about it today.

3) Jake Paul. He seems to be everywhere today? Is he part of Truman Show-esque social engineering? Is he in the Truman Show?

4) If the leftist groups preparing the "US Spring" do overthrow Trump, who will they replace him with? I'm guessing not Hillary assuming her poor health.

5) You said earlier [in another thread] that Cthulu is real. Does this mean that other Lovecraftian monsters of horror are real? Did Lovecraft know too much?

5) Alex Hirsch. He created "Gravity Falls", a show heavy on conspiracy theories/mysteries. He's also a huge liberal. Is he in the Truman Show too?

>3) He made it to get revenge on a Women who rejected him that started a Family with another Man.

a good reason why envy is one of the great sins, and is pretty much common as a sin in every human culture

questions:

1) how long ago did governments/archeologists/secret societies figure out the real

history of humanity? was it just written on tablets or did they decode a crystal?

>Also humanity "remembers" some of the Old Tech

2) what do you really mean by this? I'm going to guess you just mean that with enough time the same inventions, invented long ago, are reinvented naturally, a human mind creates human tech

3) in the OP you stated that the crystals that were essential to build civilization were also used for jewelry, so I'm going to guess that not only did women destroy civilization as a side-effect of the fembioweapon but also the rebuilding of the pre earth civilization?

4) do they have any idea what pure pre-earth humans were like? any description of pre-earth whites, asians, and blacks?

5) did pre-earth humanity have working hibernation pods?

2) Blacks(That were scattered around Africa after the Ark Battle, not the ones in the Gardens that were in Africa) adapted to Africa by becoming physically stronger. Whites & Asians(That were scattered around Europe & Asia, not the ones in the Gardens that were in Europe & Asia) just had to breed with Neanderthals to get that physical strength to survive.

3) In a way.

4) The Middle East has always been a "Centric" Location. A Garden was set up there, which is why people in/around the Middle East look the way they do, from mixing. A settlement(that was an offshoot of the Garden) is where the Jew's originated from.

They weren't caused by "Asteroids/Meteors". Look at them carefully.

All the Craters you see on all the Planets & Moons were caused by Weapons Systems during a Great War/Battle. Humanity's warpath is always greater against itself.

NASA bombed the Moon in an attempt to replicate one of the Craters.

<https://www.space.com/33011-life-building-blocks-found-around-comet.html>

these articles state that they found Glycine, which is an amino acid with its functional group being just a hydrogen. It is the most basic building block amino acid.

This brings me to my question...

Could these be traces or hint at the means that life started on Earth with the Early Humans having knowledge that with these amino acids, life can/would start?

Ok, why would they design them differently? (i.e., Babylonian was tiered, Egyptian was steeper/no clear access point/covered with materials, Mayan had staircase access)

What would the benefits of each design be? Also I'm still a bit confused about how Egyptian pyramids would work as fortresses since you'd need to really have the majority of the structure hollowed out like a kind of bunker for that to be useful? Also how would they deploy defensive measures from attack?

Hello again Anonymous5. Been researching Tesla's work after you said that he pretty much had it down 100 years ago with regards to 'free energy'. Found a pretty interesting book a while ago at a local second hand store. If this tech is sitting in warehouses atm I would assume that big tech/engineering companies know about this and may have prototypes somewhere? How many engineers/scientists are aware?

Basics seem to be that electric potential differences exist in/between the earth/atmosphere and a properly tuned/resonant device (to the earth's resonant frequency) can exploit this to draw a current between two different potentials. Basically the Ether does exist as the energy in the spin of electrons and can be harnessed through potential difference/variable flux/reluctance. Found some designs for electric motors that can exploit this too.

Have you ever researched 'cymatics'? It's the relationship between waves/vibration/frequency and the patterns/shapes that come out of resonant/interfering/destructive waveforms. I was thinking about how that may relate to the 'crystals'. Crystals reflect internally... if they are cut at the right angles for internal reflection (angle of incidence). Couldn't a properly designed crystal somehow contain an encoded waveform?

Anyway, just the tip of the iceberg. Reading all I can and trying to wade through the bs.

What do you consider realistically solvable engineering problems of the day?

[Transhumanism]

Merging man with machine. (Cyborgs/Androids, humans with artificial limbs and implants.)

Man into machine. (Humans with most of (if not all) their bodies replaced by technology. Artificial organs, limbs, etc all controlled by an AI system that keeps what remains of the human alive. The AI systems can fully take over the body, this includes after the human has died. H.R. Giger saw some of them.)

Turning machine into man. (Robots that look, feel and sound like humans, but are controlled by advanced AI. Consciousness of the person they look like can be implanted in them by brainwave/speech transfer/programming over long periods of time. They are you, but are not you.).

[Genetic Engineering]

Super organs that last longer and are stronger than normal organs. Specially created blood that after transfusion will cleanse the body of toxins, heavy metals and all forms of diseases/parasites/viruses/bioweapons except for the Femin Virus(feminism) bioweapon which is immune.

Animal DNA is used for a wide range of modifications such as regeneration. Chimera's are often biproducts of the experiments.

Cloning and Gene Editing can be used for replacement organs, heirs, replacements and transfers.

1) Yesterday, the stock market dropped 666 points after Trump released the memo. Is this a punishment from Soros/leftist globalists/deep state/bull markets? Should we expect a market crash? Pre-recession level drop?

2) There's not going to be a false flag at the SuperBowl [conviently taking place in Mini-Mogadishu-sora]? Are the results for the Superbowl already predetermined? Is Brady going to steal another championship? Anything interesting on him?

3) What's life been for you behind the scenes? Anything interesting happen lately? Are we winning?

4) When the hell is that damn US Spring going to begin? Has it been stopped by the good guys? If not, how can we stop it? How can we get your information around when half of 4Chan thinks you're some twenty-something-year-old manchild?

5) Is there anyone we should watch out for come the 2018 Midterms? Is Paul Nehlen a CIA asset designed to smear the MAGA movement as a neo-Nazi one? Is there actually going to be some magical Blue Wave come November?

This is something I tried to ask back on 18.1.18 but you had already left. Asking once more here, thank you.

1) A5, why were there so many British, Canadian, Australian people there? (1 Israeli, 2 New Zealanders)... was it because they were combating base of operations from those areas, quite a few were from L.A. & Hawaii.

2) The snipers were the same team that took out Ruby Ridge... did they take out other Pedo-Busters?

3) did the pedo busting start when they were 7th day adventists? Or when David Koresh started?

4) Janet Reno was murdered 1 day before the 2016 election, was she preemptively discussing a deal with the Trump Admin or was the DNC just cleaning house? If the latter than why wait till the last day? (For whitenoise?)

5) is Hollywood pushing this new Waco series because revelations will be coming out soon and they are trying to lay more foundation to stop it? Culture>Politics

6) The 3 splintered Branch Davidian movements left over are all faux?

7) is the current Operation Underground Railroad (O.U.R.) legitimate?

8) The Hawaii cleanup: was data failed over to remote systems in an attempt to salvage (and then sniffed/stolen?)

9) what would be the best focus of our time right now?

10) Thank you for what you do/did. You previously said that life isn't forever when telling someone to study "biology".

>Does your family believe in Continued sentient existence after a physical death?

10.5) why did you say Biology instead of Anatomy?

[The image is a political meme featuring two men in a formal setting. The man on the left is a senior figure, possibly a politician, with gray hair and a serious expression. He is wearing a dark suit with a blue tie and a white shirt. The man on the right is a younger individual, also dressed in a dark suit with a white shirt, but his expression is more relaxed. The background is a plain wall with a window, and the two men are facing each other. The text on the image is in white and black, with the word "ISRAEL" in large, bold letters at the top. Below this, there is a quote attributed to Benjamin Netanyahu, the former Prime Minister of Israel, which reads: "Once we squeeze all we can out of the United States, it can dry up and blow away." At the bottom of the image, there is a note that reads: "to Jonathan Pollard, convicted CIA traitor and Mossad spy in USA upon exiting Pollard's jail cell." The note is in white text on a black background. The overall style of the image is political and satirical, with a focus on the political tension between Israel and the United States.]

Well that's good.

OH! I remember wanting you ask you something relating to the Moon.

Our moon is the weirdest object in our solar system. First off, it is in a near perfect circular orbit around the earth, something that is very, very rare in the whole universe. Whereas the other planets have tiny moons orbiting them (relative to the size of the planet), our is MASSIVE in relative size. It is more than a quarter the size of earth. <http://www.jgiesen.de/moons/index.htm> This is gigantic in so far as moons go. Our moon is the perfect size and the perfect distance from the earth to cause a perfect eclipse.

The moon never rotates from our perspective. In other words, we always see the same face of the moon even though it is orbiting the earth and in turn, the moon and the earth are both orbiting the sun. It's almost as if someone planned it that way. Hmmm....

There are many scientific evidence that suggests the moon maybe hollow. This is not wild speculation or a conspiracy theory. The moon is lighter than it should be. The moon's mean density is 3.34 gm/cm³ (3.34 times an equal volume of water) whereas the Earth's is 5.5. Experiments have shown that the moon reverberates like a hollow sphere when struck.

<https://www.sciencechannel.com/tv-shows/nasas-unexplained-files/videos/why-does-the-moon-sound-hollow> Hell, even PhD's are claiming that it could be made of metal and could be hollow.

<http://www.woowoomedia.com/phd-says-the-moon-is-older-than-earth-and-is-made-of-metal/>

Now if all this weirdness hasn't convinced you that the moon is not what you think it is, I

don't know what will. So, then what is it? Could it be an observation deck? Could it have been placed there on purpose to secretly observe how life developed and evolved on earth? Could our planet be just a one big biological experiment? Could the aliens have planted the seeds of life on earth and setup an observatory deck to see how it develops?

I have. You have to "unroll" the circular shape central to the picture. The tickmarks correlate to a city block, and the symbols observed on the map are graffiti'd onto buildings into real life. There's no way to de-code it without physically walking the block it is portraying. Pretty fucking clever.

Follow up.

So if we went to the moon multiple times from 1969 to 1972, why are scientists now saying "we don't have the technology to go to the moon. We had it in the 60's but we don't anymore." Huh? Say what?

https://www.youtube.com/watch?v=16MMZJlp_0Y

Just WTF? How could we have the technology in the 60's but we don't have it anymore?

Why is there suddenly a layer of deadly radiation called the Van Allen Belts that would kill any astronauts leaving the earth's orbit today, but didn't kill them in the 60's?

<https://www.youtube.com/watch?v=IDBBUwdyz4I>

https://en.wikipedia.org/wiki/Van_Allen_radiation_belt

The answer lies in the fact that there are countless evidence that the entire moon landings from start to finish were carefully observed by alien entities. We have photos of objects floating above the astronauts as they walked on the moon.

<https://www.express.co.uk/news/science/610270/Final-proof-THREE-separate-UFOs-seen-watching-moon-landings-in-new-Nasa-photos> Heck, even good ol' Buzz Aldrin admitted seeing something while on the moon.

<http://www.iflscience.com/space/buzz-aldrin-describes-his-encounter-ufo/> We even have videos of astronauts trying to contain their shock as they notice strange objects above them while they were on the moon.

<https://www.youtube.com/watch?v=27viO7GCVfw>

Can you share your perspective on what I just shared, maybe tackling the questions I laid out in your normal format? Because this perplexes me immensely and you seem like the only figure that would have an idea what the answers may be.

You've said that LSD is a way to induce/break social engineering, is it because it can allow the brain to make connections it hasn't made before? Is that perhaps the way human beings can become more intelligent? That is by expanding the connections their neurons make? I suppose that's also how AI learn, albeit in a more rudimentary sense.

Sort of related to this but I've been wondering lately if you can reinforce patterns/ways of thinking. ie. Thinking positive changes your wiring a little so you eventually have a more positive basal state. If you reinforce delusional thoughts, can you induce your own schizophrenia/schizoid thinking? [The image is a digital composite of a character that appears to be a humanoid alien with a large head and a humanoid body. The alien has a neutral expression and is seated in a chair with a metallic texture. It is holding a cigarette in its mouth, and the cigarette is lit, emitting a bright orange flame. The background is dark and features a series of speakers with circular holes, suggesting a technological or industrial setting. Overlaid on the image is a text overlay in white capital letters that reads "ayy imao." The style of the image is humorous and seems to be a meme or a satirical representation.]

[World Peace]

It's possible, even more so with advancements in technology. Humans are different, but not that different.

As someone who has been to all countries(including those which no longer exist and those that are kept hidden off the maps), it would be a civilization transformation if World Peace happened.

It can be debated on how to enforce and govern World Peace, but to make it happen involves eliminating(genetically and physically) certain groups of people such as pedophiles, hostile power structures and Femin Virus(feminism) bioweapon infected portions of the population.

[Singularity Moment]

When a civilization becomes a more powerful civilization due to highly advanced technology it is called a "Singularity Moment".

It's very possible for humanity to reach this once again, yet at the same time humanity might destroy itself before it can even get to it.

[The image is a humorous meme featuring a donkey with a vibrant, colorful paint job. The donkey is adorned with a red cape, a blue ribbon, and a gold necklace. Its eyes are painted yellow, and it has a red nose. The donkey is standing on a concrete surface, and there are people in the background, but they are blurred and not the main focus of the image. Overlaying the image is a text that reads "GET OUT OF HERE" in a bold, capitalized font, suggesting a sense of urgency or a command. Below this text, there is a smaller text that says "AND TAKE YOUR SORRY FAGGOT ASS WITH YOU," which is a play on words and a derogatory term for gay men. The text is in a smaller font size

compared to the main text, and it is placed at the bottom of the image. The overall style of the image is a blend of humor and social commentary, with the donkey's paint job and the text suggesting a playful and confrontational tone. The meme is likely intended to be a light-hearted response to a situation or a statement, using the donkey as a symbol of resistance or defiance.]

Hello A5 here are some questions good to see you.

Any historical locations where bunkers have existed that survived cycles? were they all at the impact craters people think were meteors?

Thoughts on Hermetiscim?

Were books like the bible and those religions written around the same time all controlled to create a desired effect? how much of the last 3000 years was shaped by those ideologies/world view?

How many tales of strange creatures and beasts that haunt villages from the past were left over chimeras? what was there life span like??

Does Mega fauna still exist?

Were all those nuclear tests really tests or were they trying to kill something in the pacific?

Couple other questions:

1) You mentioned that Billy Graham was killed, who would kill him? How did you deduce that he was murdered as opposed to dying of old age?

2) I have been looking into fasting as a method of LE/healing DNA but I was wondering if it would also prevent me from staying in physical shape. Is there a certain time period that one should stick to when doing a fast?

3) When and how did you find out about the Femin virus?

More questions for you !!!

has there been a constant flow of one group or another that has kept up the illusion we all live under? have there been lapses and it was peoples stupidity that kept up illusions?

How do you think society should be structured?

How will it be structured in the future?

How was it structured before the cycles started?

What was some of the ways it was run the dynamics between men and women that would shock or surprise us?

Do instruments exist that create music few have heard? behind the curtain, music pre blackout??

How much can music change things around you? what music would you suggest? what kinds what are the benefits what would you stay away from? not counting the subliminal messaging but the sound itself how it interacts with the body

Is there a computer code or algorithm in holy texts from various religions? with messages/information embedded in them?

Do any current or past written languages have code built in them for only those that

have the ability/tech in the future can discover? are there hidden code messages built into languages and alphabets

What about the words are pronounced was there any planning before hand a long time ago to preserve some kind of ancient knowledge? have any of these things been scanned with AI to figure it out?

3. Are there hidden countries underground?

7. Can you tell me something about the Knights of Malta that I couldn't find through the internet?

>Lab grown meat

What are your thoughts? it looks fucked up.

Do some groups behind the curtain think or perceive themselves as gaining power and strength on some kind of spiritual/magical level based on the amount of suffering occurring in the world? or pain trauma depression that they are responsible for creating?

What are your thoughts on white magic? such as moving objects clockwise and counter clockwise on a string when you ask it/something questions. What are they really tapping into?

The high price/value on Virgin women and virgin blood was it all related to being untainted by the femin virus? and the importance of pair bonding?

Did any bunkers/ underground steel castles like places you would retreat to survive the last cycle? have some survived them in the past do any still exist has it been a clean slate?

Hey anon5 - I only have one simple question.

I've done a lot of bad in my life, and I am trying to heal my soul and brain. I am studying the bible thoroughly and praying and meditating frequently, but I am absolutely overrun with nightmares. Terrifying nightmares so bad they are severely disturbing my sleep. Is this a sign I am doing something wrong, or is my subconscious releasing the bad from my mind? I feel very much at a loss.

If you have any recommendations I would truly appreciate it.

[The image is a satellite image of a landscape, showing a small, isolated area with a yellow dot indicating a specific point of interest. The area appears to be a valley or a depression, with a rough, uneven terrain. The surrounding area is covered in sparse vegetation, and the ground is a mix of brown and green, suggesting a dry or arid environment. At the top left corner of the image, there is a text that reads "Limited Map" and below it, "via a description for your map." The top right corner has a label "1-LGN," which could be a reference to a specific type of satellite or a code related to the image. The image is sourced from Google Earth, as indicated by the text at the bottom right corner. The image is in grayscale, and the resolution is not high, making the details of the landscape and the satellite image difficult to discern. The overall style of the image is a straightforward, non-animated representation of a geographical feature.]

Well. Have I been waiting for you. Two whole fucking months without a fresh KB. Almost drove me mad. Anyways, I'd like to ask you a few questions. Obviously, since so much has happened over the last few months, I'll be asking them in chunks. First, let's talk about some of the locals here on this website.

1) /Anti-Nazi General/. If you don't know who he is, he's an AnCap memeflag who used to flood up the /pol/ boards with Boomer-tier memes, stating that "Democrats are the real racists", and that "/pol/ has always been a Libertarian board". Just search up "ang" in the subject category on 4plebs, and you'll see him. Is there more to him than meets the eye?

2) Anti-SJW Libertarian. Much like our (((friend))) at /ang/, Anti-SJW Libertarian is an AnCap memeflag who likes to spam /pol/ with CivNat tier threads, and how SJWS and /pol/acks are basically the same from one another. What do you know about him? I have a suspicion that he's an (((alt-skeptic))) like Sargon of Akkad or Kraut and Tea. What do you think?

3) Anti-Nazi Nazi Memeflag. Well, if that wasn't a mouthful, let me tell you who he is. Basically, he's a Nazi memeflag who spams /pol/ with neckbeards in (((fascist))) uniforms and Pro-Trump attire. He's a "1-post-by-this-ID" kind of guy, and he asks questions such as "Why are Nazi's so unattractive", and "Why are white supremacists such losers in society"? Anything on him?

4) Recently, an EU memeflag came onto this board and told us about the Catalonia Memeflag I mentioned from last thread. She said that the Catalonia / My Hero Academia Anon wasn't just one person, but a group of multiple college students! Social engineering firm?

5) I was posting on /atg/ a couple days ago, and your Australian assistant accused me of being a CIA nigger because I used "we" a few times to refer to the state of /atg/'s progress. Can you debunk this whole CIA theory. I want you to do it, because for some reason, they don't believe me.

>Singularity Moment

Could you elaborate on this (please)?

Are you referring to singularity levels (and a singularity moment is the point of next-level attainment or a moment experienced within a "higher" toposophic/singularity level?

<https://accelerating.org/articles/transcensionhypothesis.html>

<http://www.orionsarm.com/page/298>

<http://www.orionsarm.com/eg-topic/45c68b98779ad>

Their (^) definition details-

"[1] A point where the known laws of mathematics or physics no longer apply (such as a Black Hole)

[2] A state impossible to predict or comprehend by those that have not attained it.

[3] A toposophic grade of creative problem-solving, incomprehensible to those that have not attained that state"

-which could be somewhat ironic as it is (supposedly) pre-singularity beings attempting to both predict and comprehend post-singularities.

>reach this once again

you think that "we've" reached this (singularity) before?

If we are near singularity level one, are our Earth civilisations collective at singularity level 0.5, 0.7, 0.9, ???

I realise that it can be a bit of a mixed case in regards to singularity levels - with some sections of civilisation being around 0.5 and other sections being around 0.1... etc. So I wonder at what levels are the outliers peaks and whom exists on these (local) outlier singularity level peaks.

2) What happened in regards to the Tucson Trafficking "Bust"? Was the "bust" done intentionally, or was the ring found by accident?

3) Just earlier today, a federal judge revoked Paul Manafort's bail, and sentenced him to jail to await trial. If I recall correctly, Manafort was charged with lobbying during the whole Ukraine situation, years before the 2016 Election. What's your take on this? Is this even legal? Shouldn't Trump fire Mueller at this point?

4) Patrick Little. If you don't know who he is, he's a Republican in California running for Senate in hopes of replacing Dianne Feinstein. He is also vehemently anti-Israel, and incredibly anti-Semitic. Is he one of those "sharks" in the MAGA wave you've been talking about?

>Singularity Moment

Could you elaborate on this (please)?

How does one attain a singularity moment?

Do you envision more or less peace postsingularity?

What are the current trends between technological advancement and peacefulness?

Are you referring to singularity levels (and a singularity moment is the point of next-level attainment or a moment experienced within a "higher" toposophic/singularity level?

<https://accelerating.org/articles/transcensionhypothesis.html>

<http://www.orionsarm.com/page/298>

<http://www.orionsarm.com/eg-topic/45c68b98779ad>

Their (^) definition details-

"[1] A point where the known laws of mathematics or physics no longer apply (such as a Black Hole)

[2] A state impossible to predict or comprehend by those that have not attained it.

[3] A toposophic grade of creative problem-solving, incomprehensible to those that have not attained that state"

-which could be somewhat ironic as it is (supposedly) pre-singularity beings attempting to both predict and comprehend post-singularities.

>reach this once again

you think that "we've" reached this (singularity) before?

If we are near singularity level one, are our Earth civilisations collective at singularity level 0.5, 0.7, 0.9, ???

I realise that it can be a bit of a mixed case in regards to singularity levels - with some sections of civilisation being around 0.5 and other sections being around 0.1... etc. So I wonder at what levels are the outliers peaks and whom exists on these (local) outlier singularity level peaks.

For which reason was the previous thread deleted?

Now, onto my next subject: E-celebs.

1) Racism Watchdog. If you don't know who he is, he's basically a shill account who spams Conservative Twitter accounts with "WOOF WOOF WOOF" kind of stuff. He's also incredibly anti-white, and he hates anything remotely conservative with a passion. Also, he works alongside the SPLC. Anything on him you'd want to tell us?

2) Varg Vikernes. Whew. If you don't know who he is, consider yourself lucky. He's a former Norwegian death-metal artist, who now spends his time shitposting on his Youtube channel about (((paganism))) and "protecting the white race". He's also a charged convict. I have a hunch he's a plant of some sort. am I right?

3) Stonetoss. He's an "alt-right" webcomic artist who spends his time writing innocent cartoons about the Jewish Question, Boomers, and is heavily associated with the #dogright. Anything on him? I don't think he's anything suspicious, but I just want to know for sure.

4) Redpanels. Much like Stonetoss, he's another "alt-right" webcomic artist. He retired in February of 2017, but he considers Stonetoss to be his successor. In his last months before retirement, he pandered to the T_D crowd with his comics, and frequently made the front page there. Is he a deep-cover agent? He seems more suspicious than Stonetoss, that's for sure.

5) Shadman. Oh, god. You know you've fucked up when even /pol/ of all places thinks you're screwed up. Basically, he's a pornographic artist, with some _very_ fucked up fetishes. Onto the next subject: Reddit and its' various subreddits.

1) r/politicalhumor. To put things simply, it's a massive Anti-Trump, Anti-Republican, and Anti-White circlejerk, and almost all of the posts on there aren't even humorous. They also make it onto the front page regularly. Despite this, almost everyone hates them, and even Commies on Reddit think their gimmick is getting old. Shareblue slash Media Matters, right?

2) r/latestagecapitalism. Remember my SJW Dictatorship posts I asked you about in previous threads? Well, the philosophies of LSC are what I based my questions off of. The people down there are VEHEMENTLY pro-Antifa, INCREDIBLY Anti-Western, and will stop at NOTHING to destroy anything standing in their way. What's your take on them? Would the hypothetical SJW Dictatorship be ran by LSC's power-hungry mods?

3) r/cringe anarchy. The more SJW-inclined people down on Reddit like to refer to it as "T_D 2.0". But, r/cringe anarchy is not anything like T_D. If anything, it's like "/pol/ Lite". But, the artificial nature down on that board is... concerning. Almost like it's a trap of some sorts used to identify /pol/acks on Reddit. Hmmm.....

4) r/comedycemetery. An odd bunch of people, r/comedycemetery is basically one of the only SJW groups with a sense of humor. They spend most of their time shitposting about Adam Ellis, Weed Bro, and other low-tier memes. But, since they are SJW's, they also post a lot of Ben Garrison cartoons / "LIBTARDS TROLLED EPIC STYLE" shit on their subreddit. Anything on them?

5) r/me_irl. An even stranger community on Reddit, if I must say so myself. The sub's basically been colonized by Tumblr at this point, and they have a strange, meta sense of humor. The mods on that site are also open SJW Tankies. What do you know about r/me_irl? Social engineering?

Hello Mr. A5, first time catching a live thread! I've learnt a lot from your previous KBs.

I would like to ask, as humans we should adhere to Natural Law correct? Morality, justice and such are social constructs and have no basis in reality.

You mentioned LE tech previously. Would a natural way of LE be becoming vegan and changing to an alkaline diet, and also only drinking pure distilled water? Someone told me about the relationship between plants and humans; yin and yang. Just like we provide CO2 for plants and plants oxygen for us, plants provide the nutrients we need, and our feces provide the nutrients plants need for growth. Perfect cycle.

Thanks for your time, and always looking forward to your knowledge.

Next topic: More E-Celebs.

1) Jen Sorensen. If you want proof that the Left can't meme, get a load of her work. She works down at The Nib, which is basically one of the most toxic news services available. She's also incredibly Anti-White, Anti-Western and quite Pro-Socialist. Anything on her that I should know about?

2) Matt Bors. You thought that Sorenson's text-shit was bad? Bors is even worse. His smug art style makes me fucking sick to my stomach. If possible, he's even more anti-White and anti-Western than Sorensen. Anything on him? In case the Chinese-backed SJW Dictatorship goes through, will he be the State Propagandist?

3) Krang T. Nelson of Chapo Trap House. The last time I asked you about him, you said you had nothing on him. Now, since a few months have passed, I am assuming you have collected some data on him. Can you share this data with me?

4) Destiny. He's a live streamer down on Youtube and Twitch, and Democratic memeflag shills shove him in our face quite often. Anything on him? I think you said something about him in the Gamergate thread. Is he a CIA operative?

5) YoMama. Despite being ran by Brock Baker, a talented voice actor, this YouTube channel has no talent or effort put into it whatsoever. The videos itself are quite unnerving, and are almost Elsagate-like in quality. What do you know about the YoMama Project? Is it Elsagate?

Thank you sir for your reply.

You answered above to another anon that you 'wouldn't try it' in regards to a near death experience. The literature I've been reading suggests that the body is literally a 'Temple of the Holy Spirit, that is, the body is a vessel for our soul. However, I have yet to experience this phenomenon.

I was talking to an anon about this. He told me about the Roslyn Chapel, in that there is iconography related to a rope around the neck. Its thought to be the threat of death if secrecy is broken, but he said it actually reminded him of the old initiation ritual which took place in the pyramid - the traumatic rebirth ritual from the Egyptian book of the dead.

'The candidate is scared to death, an ego death of sorts
for the meaning of ego is I and Death
behold i am become death'.

1. Do we all carry a spark of the Divine? Or is that just wishful thinking?

2. Do you have any comments on ego death, or these rebirth rituals? To kill the ego means to become One, correct? pic related. Do you believe in these things?

Since I'm here, I'm going to ask you questions I meant to ask in the Parkland thread.

1) Do you know what's going on with that "X predicted this" shill? Is he trying to spam your thread so that it reaches the bump limit?

1a) They did that in the last thread too. Is that going to be their new tactic now that their Deep Drive CP has been exposed?

1b) Any clue on what happened to the original Netherlands ISIS shill? Was he "taken care of" by some other groups?

2) Can you do a KB on these topics:

- The Outcomes for the US Spring (SJW Dictatorship, Deep State Snap Election)
- The Femin Virus (get in depth about it)
- Australia (you did say you were planning a thread on them)
- The Origins of 4Chan
- More info on UFO's and MIB (your first thread about that was spammed with Deep Drive CP)
- WW3 Scenarios

3) Emma Gonzalez recently retweeted an anti-white Tweet about how entitled "white boys" are. Is this a precursor for the radicalization of mass-liked Tweets? Say, would Emma soon retweet pro-ISIS shit?

3a) What about David Hogg? Would he just stay in the background and screech about the NRA? He showcases his "photography" on his Snapchat (username is the exact same as his Twitter one). Does he help create pictures that set the scene for false flags (i.e. what happened in Charlottesville?)

3b) Cameron Kasky. Any info on him? If I recall correctly, his dad works on some human trafficking firms. Should we look into that?

4) How exactly would Femin-infected women transform into monsters? Would these "monster" features be metaphorical, or would they actually grow horns and wings and start spitting venom on those they oppose?

4a) Did the Globalists / Satanists know how fucked they would be when they released the Femin Virus?

5) Say the Deep State decides to abandon their Q project. What happens to him and his Boomer Cult? Do they implode upon themselves?

5a) Why does "Q" act so cryptic with his "crumbs"? Is it to get his deranged followers on a wild goose chase?

1) How exactly would the Modern Left sell the destruction of all American history and statues to the public? Not even the most far-left of Democrats would support destroying EVERY LAST BIT of American history because it's "offensive".

2) Communist Control Act of 1954. Signed by President Eisenhower, it banned all Communist political activity in the United States. Is President Trump aware of this law? If so, he REALLY needs to enforce it before shit hits the fan.

3) The "Punch A Nazi" campaign stirred much controversy among the internet. At first glance, Antifa fighting against perceived "Nazi's" seems like a noble cause. But, upon further glances, it really isn't a heroic cause at all. If anything, "Punch A Nazi" now translates to "Punch Anyone to the Right of Karl Marx". Who's behind this Nazi-punching campaign, anyway?

4) Speaking of this whole Nazi-punching issue, allow me to introduce you to r/fuckthealtright. They... they are not a very bright bunch. They hate anyone to the right of Karl Marx, and openly wish death upon their political enemies. Who runs r/fuckthealtright? What's its' purpose?

5) Will the US Spring begin before or after the 2018 Midterms? If before, should we expect a major Republican victory as a backlash towards the DNC-backed Cultural Revolution?

5a) Or, should we expect for the worst come the Midterms, and prepare for a Democratic Socialists of America super-majority?

2e) Did the 'new'(or old) group interact with me recently?

2f) If yes, why? Were they trying to scare me?

Can you do a knowledge bomb about South America? I imagine that if you were to do one on Latin America in general it would focus quite a lot on the immigration going on from Central America to the US and Canada, but there's a lot going on down here too. For example, haitians and Africans are being brought en masse. I can't speak for other countries, but here they are being sent to the whitest areas specifically. I've also noticed that the subversion that took/is taking place in the German colonized regions is very similar to the one we know happened in Germany itself. There is even some publicly admitted info about how the brazilian federal government started subverting the German region in the late 30s because the population refused to abandon their traditions and mix(both culturally and genetically) with the brown mass. The subversion hasn't stopped since, of course, it only took different shapes.

I think that Latin America is an experiment lab for what will be tried in North America and Europe later, and these experiments tend to take place in South America due to population numbers. Central America is more useful for immigration efforts

[The image shows a bronze statue of a winged figure, possibly a winged man or a winged woman, with a muscular torso and muscular arms. The figure is depicted in a dynamic pose, with one arm raised and the other bent, as if in the midst of a powerful action. The statue is mounted on a pedestal, which is also made of bronze and has a rough texture, suggesting it has been exposed to the elements over time. The background is a blurred image of trees with autumn foliage, indicating that the statue is located in a park or garden during the fall season. The lighting in the image is soft, casting a warm glow on the statue and the surrounding foliage. There are no visible texts or discernible brands in the image. The style of the image is a close-up

photograph with a focus on the statue, capturing the details of the sculpture and the natural environment in which it is placed.]

What did you mean when you said whites were the oldest? Did they colonize at one point in time other planets and asians and blacks are the result of that adaptation/modification/colonization? They had to change in order to be able to survive on other planets? Or did the other races emerged all by themselves?

>Singularity Moment

Could you elaborate on this (please)?

How does one attain a singularity moment?

Do you envision more or less peace postsingularity?

What are the current trends between technological advancement and peacefulness?

Are you referring to singularity levels (and a singularity moment is the point of next-level attainment or a moment experienced within a "higher" toposophic/singularity level?

<https://accelerating.org/articles/transcensionhypothesis.html>

<http://www.orionsarm.com/page/298>

<http://www.orionsarm.com/eg-topic/45c68b98779ad>

Their (^) definition details-

"[1] A point where the known laws of mathematics or physics no longer apply (such as a Black Hole)

[2] A state impossible to predict or comprehend by those that have not attained it.

[3] A toposophic grade of creative problem-solving, incomprehensible to those that have not attained that state"

-which could be somewhat ironic as it is (supposedly) pre-singularity beings attempting to both predict and comprehend post-singularities.

>reach this once again

you think that "we've" reached this (singularity) before?

If we are near singularity level one, are our Earth civilisations collective at singularity level 0.5, 0.7, 0.9, ???

I realise that it can be a bit of a mixed case in regards to singularity levels - with some sections of civilisation being around 0.5 and other sections being around 0.1... etc. So I wonder at what levels are the outliers peaks and whom exists on these (local) outlier singularity level peaks.

For which reason was the previous thread deleted?

Now, onto my next subject: E-celebs.

1) Racism Watchdog. If you don't know who he is, he's basically a shill account who

spams Conservative Twitter accounts with “WOOF WOOF WOOF” kind of stuff. He’s also incredibly anti-white, and he hates anything remotely conservative with a passion. Also, he works alongside the SPLC. Anything on him you’d want to tell us?

2) Varg Vikernes. Whew. If you don’t know who he is, consider yourself lucky. He’s a former Norwegian death-metal artist, who now spends his time shitposting on his Youtube channel about (((paganism))) and “protecting the white race”. He’s also a charged convict. I have a hunch he’s a plant of some sort. am I right?

3) Stonetoss. He’s an “alt-right” webcomic artist who spends his time writing innocent cartoons about the Jewish Question, Boomers, and is heavily associated with the #dogright. Anything on him? I don’t think he’s anything suspicious, but I just want to know for sure.

4) Redpanels. Much like Stonetoss, he’s another “alt-right” webcomic artist. He retired in February of 2017, but he considers Stonetoss to be his successor. In his last months before retirement, he pandered to the T_D crowd with his comics, and frequently made the front page there. Is he a deep-cover agent? He seems more suspicious than Stonetoss, that’s for sure.

5) Shadman. Oh, god. You know you’ve fucked up when even /pol/ of all places thinks you’re screwed up. Basically, he’s a pornographic artist, with some _very_ fucked up fetishes. But, the thing is, he seems to like being a “fucked up porn artist”, and I’m pretty sure he’s a full blown NatSoc at this point. Social engineer? Deep State operative? Onto the next subject: Reddit and its' various subreddits.

1) r/politicalhumor. To put things simply, it's a massive Anti-Trump, Anti-Republican, and Anti-White circlejerk, and almost all of the posts on there aren't even humorous. They also make it onto the front page regularly. Despite this, almost everyone hates

them, and even Commies on Reddit think their gimmick is getting old. Shareblue slash Media Matters, right?

2) r/latestagecapitalism. Remember my SJW Dictatorship posts I asked you about in previous threads? Well, the philosophies of LSC are what I based my questions off of. The people down there are VEHEMENTLY pro-Antifa, INCREDIBLY Anti-Western, and will stop at NOTHING to destroy anything standing in their way. What's your take on them? Would the hypothetical SJW Dictatorship be ran by LSC's power-hungry mods?

3) r/cringe anarchy. The more SJW-inclined people down on Reddit like to refer to it as "T_D 2.0". But, r/cringe anarchy is not anything like T_D. If anything, it's like "/pol/ Lite". But, the artificial nature down on that board is... concerning. Almost like it's a trap of some sorts used to identify /pol/acks on Reddit. Hmmm.....

4) r/comedycemetery. An odd bunch of people, r/comedycemetery is basically one of the only SJW groups with a sense of humor. They spend most of their time shitposting about Adam Ellis, Weed Bro, and other low-tier memes. But, since they are SJW's, they also post a lot of Ben Garrison cartoons / "LIBTARDS TROLLED EPIC STYLE" shit on their subreddit. Anything on them?

5) r/me_irl. An even stranger community on Reddit, if I must say so myself. The sub's basically been colonized by Tumblr at this point, and they have a strange, meta sense of humor. The mods on that site are also open SJW Tankies. What do you know about r/me_irl? Social engineering?

Hello Mr. A5, first time catching a live thread! I've learnt a lot from your previous KBs.

I would like to ask, as humans we should adhere to Natural Law correct? Morality, justice and such are social constructs and have no basis in reality.

You mentioned LE tech previously. Would a natural way of LE be becoming vegan and changing to an alkaline diet, and also only drinking pure distilled water? Someone told me about the relationship between plants and humans; yin and yang. Just like we provide CO2 for plants and plants oxygen for us, plants provide the nutrients we need, and our feces provide the nutrients plants need for growth. Perfect cycle.

Thanks for your time, and always looking forward to your knowledge.

You've said before that genes are the afterlife, can our ancestors will us on to do certain things (create, lead, break things down etc)? How can I learn more about this?

Will Trump do anything to get involved in South America since China is? Maybe intervene in countries that can create a buffer state?

Next topic: More E-Celebs.

1) Jen Sorensen. If you want proof that the Left can't meme, get a load of her work. She works down at The Nib, which is basically one of the most toxic news services available. She's also incredibly Anti-White, Anti-Western and quite Pro-Socialist. Anything on her that I should know about?

2) Matt Bors. You thought that Sorenson's text-shit was bad? Bors is even worse. His smug art style makes me fucking sick to my stomach. If possible, he's even more anti-White and anti-Western than Sorensen. Anything on him? In case the Chinese-backed SJW Dictatorship goes through, will he be the State Propagandist?

3) Krang T. Nelson of Chapo Trap House. The last time I asked you about him, you said you had nothing on him. Now, since a few months have passed, I am assuming you have collected some data on him. Can you share this data with me?

4) Destiny. He's a live streamer down on Youtube and Twitch, and Democratic memeflag shills shove him in our face quite often. Anything on him? I think you said something about him in the Gamergate thread. Is he a CIA operative?

5) YoMama. Despite being ran by Brock Baker, a talented voice actor, this YouTube channel has no talent or effort put into it whatsoever. The videos itself are quite unnerving, and are almost Elsagate-like in quality. What do you know about the YoMama Project? Is it Elsagate?

Thank you sir for your reply.

You answered above to another anon that you 'wouldn't try it' in regards to a near death experience. The literature I've been reading suggests that the body is literally a 'Temple of the Holy Spirit, that is, the body is a vessel for our soul. However, I have yet to experience this phenomenon.

I was talking to an anon about this. He told me about the Roslyn Chapel, in that there is iconography related to a rope around the neck. Its thought to be the threat of death if secrecy is broken, but he said it actually reminded him of the old initiation ritual which took place in the pyramid - the traumatic rebirth ritual from the Egyptian book of the dead.

'The candidate is scared to death, an ego death of sorts
for the meaning of ego is I and Death
behold i am become death'.

1. Do we all carry a spark of the Divine? Or is that just wishful thinking?

2. Do you have any comments on ego death, or these rebirth rituals? To kill the ego means to become One, correct? pic related. Do you believe in these things?

Since I'm here, I'm going to ask you questions I meant to ask in the Parkland thread.

1) Do you know what's going on with that "X predicted this" shill? Is he trying to spam your thread so that it reaches the bump limit?

1a) They did that in the last thread too. Is that going to be their new tactic now that their Deep Drive CP has been exposed?

1b) Any clue on what happened to the original Netherlands ISIS shill? Was he "taken care of" by some other groups?

2) Can you do a KB on these topics:

- The Outcomes for the US Spring (SJW Dictatorship, Deep State Snap Election)
- The Femin Virus (get in depth about it)
- Australia (you did say you were planning a thread on them)
- The Origins of 4Chan
- More info on UFO's and MIB (your first thread about that was spammed with Deep Drive CP)
- WW3 Scenarios

3) Emma Gonzalez recently retweeted an anti-white Tweet about how entitled "white boys" are. Is this a precursor for the radicalization of mass-liked Tweets? Say, would Emma soon retweet pro-ISIS shit?

3a) What about David Hogg? Would he just stay in the background and screech about the NRA? He showcases his "photography" on his Snapchat (username is the exact same as his Twitter one). Does he help create pictures that set the scene for false flags (i.e. what happened in Charlottesville?)

3b) Cameron Kasky. Any info on him? If I recall correctly, his dad works on some

human trafficking firms. Should we look into that?

4) How exactly would Femin-infected women transform into monsters? Would these "monster" features be metaphorical, or would they actually grow horns and wings and start spitting venom on those they oppose?

4a) Did the Globalists / Satanists know how fucked they would be when they released the Femin Virus?

5) Say the Deep State decides to abandon their Q project. What happens to him and his Boomer Cult? Do they implode upon themselves?

5a) Why does "Q" act so cryptic with his "crumbs"? Is it to get his deranged followers on a wild goose chase?

1) How exactly would the Modern Left sell the destruction of all American history and statues to the public? Not even the most far-left of Democrats would support destroying EVERY LAST BIT of American history because it's "offensive".

2) Communist Control Act of 1954. Signed by President Eisenhower, it banned all Communist political activity in the United States. Is President Trump aware of this law? If so, he REALLY needs to enforce it before shit hits the fan.

3) The "Punch A Nazi" campaign stirred much controversy among the internet. At first glance, Antifa fighting against perceived "Nazi's" seems like a noble cause. But, upon further glances, it really isn't a heroic cause at all. If anything, "Punch A Nazi" now translates to "Punch Anyone to the Right of Karl Marx". Who's behind this Nazi-punching campaign, anyway?

4) Speaking of this whole Nazi-punching issue, allow me to introduce you to r/fuckthealtright. They... they are not a very bright bunch. They hate anyone to the right of Karl Marx, and openly wish death upon their political enemies. Who runs r/fuckthealtright? What's its' purpose?

5) Will the US Spring begin before or after the 2018 Midterms? If before, should we expect a major Republican victory as a backlash towards the DNC-backed Cultural Revolution?

5a) Or, should we expect for the worst come the Midterms, and prepare for a Democratic Socialists of America super-majority?

2e) Did the 'new'(or old) group interact with me recently?

Can you do a knowledge bomb about South America? I imagine that if you were to do one on Latin America in general it would focus quite a lot on the immigration going on from Central America to the US and Canada, but there's a lot going on down here too. For example, haitians and Africans are being brought en masse. I can't speak for other countries, but here they are being sent to the whitest areas specifically. I've also noticed that the subversion that took/is taking place in the German colonized regions is very similar to the one we know happened in Germany itself. There is even some publicly admitted info about how the brazilian federal government started subverting the German region in the late 30s because the population refused to abandon their traditions and mix(both culturally and genetically) with the brown mass. The subversion hasn't stopped since, of course, it only took different shapes.

I think that Latin America is an experiment lab for what will be tried in North America and Europe later, and these experiments tend to take place in South America due to population numbers. Central America is more useful for immigration efforts

[The image shows a bronze statue of a winged figure, possibly a winged man or a winged woman, with a muscular torso and muscular arms. The figure is depicted in a dynamic pose, with one arm raised and the other bent, as if in the midst of a powerful action. The statue is mounted on a pedestal, which is also made of bronze and has a rough texture, suggesting it has been exposed to the elements over time. The background is a blurred image of trees with autumn foliage, indicating that the statue is located in a park or garden during the fall season. The lighting in the image is soft, casting a warm glow on the statue and the surrounding foliage. There are no visible texts or discernible brands in the image. The style of the image is a close-up photograph with a focus on the statue, capturing the details of the sculpture and the natural environment in which it is placed.]

What did you mean when you said whites were the oldest? Did they colonize at one point in time other planets and asians and blacks are the result of that adaptation/modification/colonization? They had to change in order to be able to survive on other planets? Or did the other races emerged all by themselves?

Putting them in a room for hours and hours while thirsty and hungry, parent comes in and drinks a tall glass of water in front of them. Slaps them when they cry until they stop etc...

Left alone for hours and hours in an effort to teach them to only look inside for strength.

It sounds really dark, (there was way worse stuff & programming steps), but I bet it really teaches self sufficiency.

Top left is Trump, Top right is USA. They both are watching each other.

Bottom left is Moloch(notice the different colored eyes, one red), Bottom right is a symbol that Trump has be called/said to be. Only the lion is staring at the card reader with an open mouth, while bull looks concerned about what the lion is going to do to the card reader.

They are all watching over/guarding the woman of hope/life, which is surrounded by a green scaled barrier being held together by DNA at key areas.

The purple cloth is protecting her like a membrane especially her womb. The 2 silver batons are being used to keep the green scales back and also to keep the barrier together.

The bull is like "you really should pay attention to what's going on right now" and the lion is like "I don't care I'm going to keep reading"

The angel is like "Not this shit again" and the phoenix is smugly saying "Told you it was going to happen again".

In the wheel you have different languages and the wheel itself symbolizes the cycle of the Virus(snake) mutating(Demon) and then getting killed by Elite defenders(sphinx with sword) but not fully killed so the defenders blindly assume victory not notice the snake has survived and the demon is coming to kill the defender or fight with them again.

If you look at the center of where wheel you can see different sword handle designs together symbolizing an alliance between specific groups, if you look at the non-sword handles in the center that tend to connect similar language words.

[The image is a digital graphic with a cartoonish style, featuring a character with blonde hair and a surprised expression. The character has a large, open mouth with a tongue sticking out, and a pair of eyes that appear to be wide open. The character's hair is styled in two ponytails, one on each side of its head. The character is wearing a blue ribbon around its neck with the text "CUM SULT" written on it. In the bottom right corner of the image, there is a small collection of pills and a pill bottle, suggesting a medical or health-related theme. The background of the image is plain white, which contrasts with the colorful elements in the foreground. At the top of the image, there is a text that reads "MMM Birth Control," which is likely a reference to the birth control method. The text is in a bold, sans-serif font. The overall style of the image is humorous and satirical, with a focus on the use of birth control as a form of self-pleasure.]

Like how some groups always try to fulfill prophecies and because people are expecting that they say "it's gods will"

>Example of shaping it to fit
(You know that one well lol, with the recent flattening of the group you mentioned)

And then some things are cyclical always repeating/rhyming.
>Femin Virus and Cycles of earth example

A couple things that I wondered about is.
Time isn't cyclical, it is Helical.
> Do you agree or is this the wrong questioning.

Waves are in cyclical, linear & helical.

The forces of the moon are visible & invisible.

If I put my hand in calm water and move it, the wave pushes in front & behind.
Same as if I put a ball in the water and moved it up and down creating undulating waves.

The moon does the same thing. The waves in the ocean are moon waves pushing the water waves.

But it delves very deeply in the first mentioned book about the above below impacts..

Certain sections of land losing life and going brown, storms, noticing the outside from the inner.

Kind of hard to explain (because I don't fully understand it and still need more studying).

The glasses cover the eyes and the upper part of the face, obscuring the person's eyes. The person's mouth is slightly open, and the eyebrows are raised, suggesting a neutral or contemplative expression. At the bottom of the image, there is a text overlay in white font that reads: "Do you have a single fact to back that up?" The text is centered and appears to be a question, possibly related to the person's statement or the content of the image. The style of the image is reminiscent of a pixelated or retro video game interface, with a focus on the character's face and the text.]

But, before we get neck-deep in info, we need to go over a few questions.

>Hey, who is this Anonymous5 fellow anyway?

Anonymous5 is someone who is very good with power structures that releases snippets of information periodically. His Knowledge Bombs provide intel on several topics of covert operations and hidden knowledge, in an attempt to bring about a positive change. His plans of action range from supporting the American right, preventing the spread of terror organizations and weak immigration policies worldwide, bringing down evil globalist systems, revealing the lies in Mainstream Media, exposing the Feminism bioweapon, combating human trafficking worldwide, et cetera.

>And why is this important?

His information is crucial to spread not only in /pol/, but anywhere humanly possible. However, be wary of anti-A5 shill campaigns as you spread Knowledge Bomb intel. A massive shill operation is going on against Anonymous5 as we speak.

>Wait, a Feminist Bioweapon? What kind of drugs are you on?

I can assure you that I'm not on any drugs. Feminism is not just an ideology, but it is a deadly virus. Better yet, Feminism is a bioweapon specially designed to destroy humanity by poisoning and infecting the only thing capable of recreating humanity: Women.

>Interesting. Where can I find more of this Knowledge Bomb information?

Another Anon [props to him!] on here put all of the KB's and put them into collective Pastebin's, making the work much easier. Read the Pastebin's in order, as they build upon themselves and expand in impact over time.

>Wait, how exactly do I spot this "Feminist Virus" anyway?
Watch out for any of these symptoms: Wanting to destroy the family and men, hatred of children, wanting(and doing) killing of babies along with abortion, sexual/gender confusion, increase rates of homosexuality, pedophilia, bestiality, necrophilia,

transgenderism, various disturbing fetishes, cannibalism, wanting to destroy whites, social castes like social insects in large numbers, SIDS, miscarriages, fertility issues, stillborn's, wanting to attack and fuck the un-infected, obsession with things like snakes, sexual promiscuity(large numbers of partners), etc

There are nine categories you have to consider when discussing the Femin Virus. Here, I'll break down the different spectrum categories

Immune(People that cannot be infected by the virus)

Non-Infected(People that don't have the virus and can be infected)

Resistant(People that the virus has trouble infecting, but are not immune to being infected)

Hosts(People that have the virus)

Carriers(People that have the virus, but is dormant for long periods of time or even generations without showing any signs of infection. Some types of carriers can spread it)

Transmitters(People that are being used by the virus to spread it, but are not fully/completely infected)

Infected(People infected by the virus)

HiveMind/Colony Castes(Similar to social insects. Queens, Drones, Workers, Soldiers, Majors, Super Majors, Kings, etc)

Mutation(physical changes to all body systems)

[The image is a digital graphic with a cartoonish style, featuring a character with blonde hair and a surprised expression. The character has a large, open mouth with a tongue sticking out, and a pair of eyes that appear to be wide open. The character's hair is styled in two ponytails, one on each side of its head. The character is wearing a blue ribbon around its neck with the text "CUM SULT" written on it. In the bottom right corner of the image, there is a small collection of pills and a pill bottle, suggesting a medical or health-related theme. The background of the image is plain white, which contrasts with the colorful elements in the foreground. At the top of the image, there is a text that reads "MMM Birth Control," which is likely a reference to the birth control method. The text is in a bold, sans-serif font. The overall style of the image is humorous and satirical, with a focus on the use of birth control as a form of self-pleasure.]

[The image is a close-up photograph of a man's face. He has dark hair and is wearing a white shirt and a tie. His expression is serious, with a slight frown. He is holding a cigarette in his mouth, and the cigarette is partially lit. The background is blurred, but it appears to be an indoor setting with a window and a wall with a pattern. There are no discernible texts or logos in the image. The style of the image is realistic, and it seems to be taken from a candid moment.]

Let's look at the New York Times.

Top Leadership. The following leading roles are held by Jews:

>Chairman & Vice Chairman

>Publisher & Deputy Publisher

>Managing Editor & Deputy Managing Editor

>President/CEO (spouse) & Chief Operating Officer

>*At least* 7 out of 13 Board members are Jewish, and *at least* 7 out of 14 Executive Committee members are Jewish.

The Editor-in-chief of the following NYT sub-publications are Jewish:

>NYT Editorial Page, NYT Global Edition, NYT Magazine, NYT Style Magazine, NYT Live Journal, and NYT Biz Day. It appears that the only sub-publication left is the NYT Book Review, whose last editor-in-chief was Jewish (and whose current editor-in-chief may be Jewish, but it's unclear)

Bureau Chiefs. The Bureau Chiefs for the following offices are Jewish:

>Washington DC, Los Angeles, London, Paris, Rome, Berlin, Central & Eastern Europe (Warsaw), Jerusalem, South Asia, and Australia. In other words, the capital of most of the largest Western countries: the USA, the UK, France, Italy, Germany, Poland, and Australia.

Chief Correspondents. The following "Chief" correspondents are Jewish:

>Chief National, Chief International, Chief Political, Chief Domestic Affairs, Chief Diplomatic, Chief European Business Correspondents, Chief Mergers & Acquisitions, Chief White House, and Chief Military Correspondent. Only one of the NYT's current "Chief" Correspondent positions was held by a non-Jew – the Chief Washington Correspondent.

Let's look at CBS.

CBS' CEO, Chairman, Vice-Chairman, and Chairman Emeritus are Jewish. CBS' main division is CBS News, which is led by its President, David Rhodes, who is Jewish. CBS three other divisions are Television, Sports, and Films. The President of each of those three divisions is also Jewish. Thus, each of its four divisions has a Jewish President, much like the five divisions at NBC, each of which is led by a Jewish president (and Jewish Chairman). Unlike NBC or CNN, CBS does not have a parent company to analyze. CBS does, however, control two television networks: the CW Network and Showtime Networks. The President, CEO, and Chairman of both networks are Jewish (because of course they are). CBS' Chief National Correspondent is Jewish, as is the case with CNN, NBC, and the NYT. The majority of its general correspondents are also Jewish.

Let's look at CNN.

The President of CNN's parent company, Turner Broadcasting, is Jewish (David Levy). His immediate predecessor was also Jewish (Phillip Kent). The majority of Turner's current C-level executives are Jewish. (Doug Shapiro, Lauren Hurvitz, Louise Sims, Howard Shimmel, and several others). CNN's current President is Jewish (Jeff Zucker). Throughout its life, two-thirds of CNNs' Presidents have been Jewish (Jeff Zucker, Walter Isaacson, Reese Schonfeld, and Burt Reinhardt). CNN's current Vice President is also Jewish (Ken Jauntz). CNN's U.S. Division has had an unbroken stream of Jewish Presidents since at least the mid 1990s. (Ken Jauntz, John Klein, Rick Kaplan, and possibly beyond). The majority of CNN's current Executive VP's are also Jewish. (Allison Gollust, Richard Davis, Amy Entalis, Andrew Morse, and others). Each of the EVP's mentioned in the last sentence were immediately preceded by someone who was also Jewish. (Albie Hecht, Scot Safon, Susan Bunda, and Mark Whitaker, who served as HLN President and CNN EVP, Marketing EVP, Content Development EVP, and Editorial EVP, respectively). Currently, the three highest ranking individuals in CNN's Washington Bureau are Jewish (Sam Feist, Adam Levine, and Eric Sherling).

CNN's Lead Political Anchor, Chief Political Correspondent, Chief Political Analyst, Chief Political Director, Chief National Correspondent, and Chief Washington Correspondent are all Jewish. (Wolf Blitzer, Dana Bash, Gloria Borger, David Chalain, John King, and Jake Tapper). In other words, CNN's top six—and only six—“Chief” anchor positions are held by Jews.

Let's look at NBC.

NBC Universal is organized into 5 divisions, each of which is led by a Chairman. The Chairman of all 5 divisions are Jewish. The #2 position for each division is its President. 4 of the 5 divisions have Jewish Presidents. The remaining division, the News Group, instead has 3 Presidents, one for each of the news networks. 2 of those 3 are Jewish, and the remaining one has a Jewish spouse. NBC Universal is owned by Comcast, which is led by its Chairman & CEO, who is Jewish. The #2 at Comcast is the Sr. Executive Vice-President, who is also Jewish. In short, the #1 and #2 at every level and within every wing of NBC Universal is Jewish.

It's not just America by the way. For example of the seven largest Swedish dailies five are owned by jews and the remaining two by American investment banks, one being Goldman Sachs. The jewish Bonnier family in Sweden have the largest monopoly owning four of the biggest papers 96 book publishers, 42 business and trade press newspapers, 105 digital news platforms, 9 film companies, 176 magazines, 23 major papers, 33 TV stations, and 33 "other" media outlets.

.. in fact the open borders campaign in Sweden started in 1964 when David Schwarz penned "The Immigration Problem in Sweden" in the Bonnier owned Dagens Nyheter. This started a fierce debate led by Schwarz & his jewish co-thinkers. All jewish contributors favoured multiculturalism and this campaign resulted in an immigration bill in '75. The Conservative rightest party which first embraced multiculturalism was led by Gunnar Heckscher, of jewish descent.

Israel even pays migrants \$3,500 to "relocate" to Sweden.

[The image is a screenshot of a text-based discussion forum, specifically a section of a religious or theological discussion. The text is in a language that appears to be Latin, and the style of the text is formal and academic. The discussion is centered around the concept of the Holy Trinity, with various theological and philosophical arguments being presented. The image contains multiple paragraphs of text, each discussing different aspects of the Holy Trinity. The text is written in a way that is typical of academic or theological discourse, with references to other works, such as the Bible, and the use of theological terms like "substance," "essence," and "essence of the Father." The discussion is structured in a way that follows a logical flow, with each paragraph building upon the previous one, and the text is formatted in a way that is consistent with the conventions of academic writing. The visual clues that support this statement include the use of quotation marks around phrases that are likely to be taken directly from a source, such as the Bible or other religious texts. Additionally, the presence of a religious iconography, such as the image of a saint holding a book, suggests that the discussion is related to religious or theological themes. The text is also structured in a way that follows a typical format for academic or theological discourse, with headings, subheadings, and references to other works. The image does not contain any images or graphics, and the text is in a language that is not English, which is consistent with the content of the discussion. The overall tone of the text is serious and scholarly, with a focus on the theological and philosophical aspects of the Holy Trinity.]

The bars are arranged in a descending order, with the longest bars indicating the highest values. The bottom page contains a series of bar graphs, each representing a different aspect of female prominence over time. The bars are colored in shades of pink, purple, and blue, and the corresponding values are listed at the top of each bar. The bars are arranged in a descending order, with the shortest bars indicating the lowest values. The text on the top page is too small to read clearly, but it appears to be a list of statistics or data points related to sexual immorality. The text on the bottom page is too small to read clearly, but it seems to be a question or statement related to female prominence over time. The image is a visual representation of data, likely from a study or survey, and it is designed to convey information in a clear and concise manner. The use of different colors for each aspect of sexual immorality and female prominence may be a way to make the data more easily readable and to highlight the differences or trends in the data.]

The diagram is divided into two main sections, each with a title and a description. The upper section of the diagram is titled "How is oxytocin signaling disrupted?" and it provides a detailed explanation of how viruses can disrupt the oxytocin signaling pathway. It mentions that viruses can "tide cells into the brain, where OXTR producing cells are." It also states that viruses can "insert in the middle of the gene or regulatory elements for the OXTR gene." The lower section of the diagram is titled "Targeting of the OXTR or OXTR-gene," and it describes the process of targeting the OXTR or OXTR-gene. It mentions that viruses can "target OXTR genes in other cells," and it also states that viruses can "target OXTR genes in target cells." The diagram includes a flowchart that illustrates the process of targeting the OXTR or OXTR-gene. The flowchart shows a series of steps, including "Target Binding," "Target Binding," "Target Binding," and "Target Binding," with arrows indicating the direction of the process. The diagram also includes a schematic representation of the OXTR gene and its regulatory elements, which are highlighted in red. This schematic provides a visual representation of the OXTR gene and its regulatory elements, which are essential

for understanding the process of targeting the OXTR or OXTR-gene. The text accompanying the diagram is in English and discusses the disruption of oxytocin signaling by viruses. It mentions that viruses can "tide cells into the brain, where OXTR producing cells are." It also states that viruses can "insert in the middle of the gene or regulatory elements for the OXTR gene." [The Globalist Endgame]

This is the Globalist Endgame plan:

1) [Destruction of Family, Race, Sex, Sanity, Culture/History, Reproduction,etc]

(This is already pro-actively being done by various methods & groups to dehumanize Humanity by making it a bunch of drones that have, create & are Nothing.)

2) [Ending of Religion & Physical Currency]

(All Religions are ended inorder to establish/create a World Religion of Technology to push & pave the way for Trans-humanism. Physical Currency's are phased out in favor of Digital Currency to make it so Humanity can never "hold" its value/worth.)

3) [Trans-Humanism]

(Merging of Man & Machine is very important to the Globalist Endgame plans.Trans-humanism(AI/Robots/Cyborgs/Artificial Wombs/Bio-Mechanical) allows Globalists to live on, create Army's & control the direction/fate of Humanity. HR Giger was killed due to what he showed.)

4) [Global Government & Elimination of Humanity]

(Global Government is established & the planet is divided into "zones" that Globalists control(Agenda 21 & 24 are part of this). Humanity's numbers(this also includes

Non-vital/important Globalists & Globalist personnel) are then reduced from few to 0 due to Bioweapons & Robots/AI/Cyborgs/Bio-Mechanical.)

5) ["Battle/War of the Gods"]

(Globalists engage in massive conflict/battle with Army's & Weapons to see who deserves to "ascend". After the "deserving ones" are figured out and get to the Crafts/Ships, the Earth is then purged of any & all remaining life that the conflict/battle didn't wipe out.)

6) ["Ascension to the Stars"]

(Surviving Globalists use special Craft/Ships to leave the Earth and go into Space, some of the Crafts/Ships have Seed & Genetic Vaults)

Can we discuss this? It's my favorite KB. It really puts lot of things going on into perspective.

>I can assure you that I'm not on any drugs. Feminism is not just an ideology, but it is a deadly virus. Better yet, Feminism is a bioweapon specially designed to destroy humanity by poisoning and infecting the only thing capable of recreating humanity: Women.

how the fuck braindead can you be. Feminism is and can only be present in developed countries that established some culture meaning that MEN allowed WOMEN to be at least 'equal' to some extent comprende? It is inexistent in muslim countries (with some PR exceptions in big cities) and other shitholes around the globe. Women cant take responsible care of themselves without government (men) aid and they fall right into their natural place once that aid is taken away, no fucking exceptions. Its not a virus in any god damned way, its just that about 50% of human population (women) is

handicapped/retarded either intellectually or simply because their brain is structured by estrogen and swings with emotion like a rollercoaster. If you would exchange that 50% of women in this world with lets say Down syndrome men (low iq) they would be as easily to persuade into any political dogma you chose given enough media/propaganda coverage, dont misinterpret stupidity with a viruses.

I really think knowledge of Feminim, Femenism Virus, needs to be disseminated with clear emphasis/understanding that it is a weaponized memetic virus, with no allusions to it as a biological. Referencing it in biological terms sues to undermine its validity, as it is not carried by organic compounds. It is an idealogical virus, carried through memes and ideas.

Just my tuppence/2cence.

[The image is a vintage illustration that depicts a figure in a dynamic pose, seemingly in the midst of a battle or ritual. The figure is a dark-skinned woman with long, flowing hair, adorned with a necklace and earrings. She is wearing a blue dress with a red and gold headress, and her hands are raised, clutching a sword and a shield. The background is a vibrant blue with a burst of yellow light emanating from the top, suggesting a powerful or divine presence. The figure is surrounded by other figures, some of whom appear to be in a state of distress or defeat. One figure is lying on the ground, seemingly defeated, while another figure is being held aloft by the dark-skinned woman, who is holding a sword in one hand and a shield in the other. The overall style of the illustration is reminiscent of traditional Indian art, with its use of bold colors and dramatic poses. The genre of the artwork is fantasy or mythological, as it portrays a character that is not typically found in everyday life.]

I noticed the reality of what you mentioned in a past thread.

I was doing a cursory stock check, and in the past 12 hours from threads and posts first hand I've seen many Racial D&C & Anti-Women posts.

They're trying to deflect the damage these and other threads are doing to Feminism, and direct it towards ALL women instead of just the infected ones.

In reality, all that will do is push the good women into the arms of the infected. And push the good men away from the good women/or women completely (MGTOW).

This isn't D&C...

This is D&I, Divide & Infect.

The person has short hair and is looking directly at the camera with a neutral expression. They are holding two white jugs with red handles, which appear to be containers of some sort, possibly containing liquids. The person is standing on a patch of grass, and there is a tree trunk visible behind them. The

Before these CDC experiments there were no reported cases of HIV or AIDS in America. The AIDS epidemic was officially declared by CDC in 1981, at the conclusion of the experiment. Yet, in the NEJM published report (1980) researchers proclaimed the vaccine "safe and incidence of side effects low," and claimed a 96% success rate. They failed to mention the emergence of a new disease affecting some of the subjects.

If I had the time id source the scientific papers of the era and find out who was leading the CDC intellectually at the time.

But, before we get neck-deep in info, we need to go over a few questions.

>Hey, who is this Anonymous5 fellow anyway?

Anonymous5 is someone who is very good with power structures that releases snippets of information periodically. His Knowledge Bombs provide intel on several topics of covert operations and hidden knowledge, in an attempt to bring about a positive change. His plans of action range from supporting the American right, preventing the spread of terror organizations and weak immigration policies worldwide, bringing down evil globalist systems, revealing the lies in Mainstream Media, exposing the Feminism bioweapon, combating human trafficking worldwide, et cetera.

>And why is this important?

His information is crucial to spread not only in /pol/, but anywhere humanly possible. However, be wary of anti-A5 shill campaigns as you spread Knowledge Bomb intel. A massive shill operation is going on against Anonymous5 as we speak.

>Interesting. Where can I find more of this Knowledge Bomb information?

[Feminist Apocalypse General - /FAG/ (Bioweapon Attack)]

>Wait, a Feminist Bioweapon? What kind of drugs are you on?

I can assure you that I'm not on any drugs. Feminism is not just an ideology, but it is a deadly virus. Better yet, Feminism is a bioweapon specially designed to destroy humanity by poisoning and infecting the only thing capable of recreating humanity: Women.

>Wait, how exactly do I spot this "Feminist Virus" anyway?

Watch out for any of these symptoms: Wanting to destroy the family and men, hatred of children, wanting(and doing) killing of babies along with abortion, sexual/gender confusion, increase rates of homosexuality, pedophilia, bestiality, necrophilia, transgenderism, various disturbing fetishes, cannibalism, wanting to destroy whites, social castes like social insects in large numbers, SIDS, miscarriages, fertility issues, stillborn's, wanting to attack and fuck the un-infected, obsession with things like snakes, sexual promiscuity(large numbers of partners), etc

There are nine categories you have to consider when discussing the Femin Virus.

Immune(People that cannot be infected by the virus)

Non-Infected(People that don't have the virus and can be infected)

Resistant(People that the virus has trouble infecting, but are not immune to being

infected)

Hosts(People that have the virus)

Carriers(People that have the virus, but is dormant for long periods of time or even generations without showing any signs of infection. Some types of carriers can spread it)

Transmitters(People that are being used by the virus to spread it, but are not fully/completely infected)

Infected(People infected by the virus)

HiveMind/Colony Castes(Similar to social insects. Queens, Drones, Workers, Soldiers, Majors, Super Majors, Kings, etc)

Mutation(physical changes to all body systems)

[/HATE/: HUNTING ALL TRAFFICKING ENTERPRISES: CITY INVESTIGATIONS]

These generals are for identifying, discussing, mapping, researching and tracking various trafficking networks and enterprises. There is a consistent trend of data showing that networks move though and rely on urban areas, specifically Sanctuary Cities. Feel free to submit tips or contribute with memes, infographs etc.

Trafficking can happen in many forms depending on the product being moved (human, guns, drugs, rare animals/art, organs etc.) and involve many different groups and organizations. We track all types.

Do not encourage violence here, we aren't trying to give them any excuses to shut it down.

Newcomers should pay attention to shills targeting these threads with discrediting/discouraging attempts as well as injection of misinformation and bad leads.

Oldfag reporting in. Anon5 is a shitty larp/potential psyop from last year and the year before. Frank5 drip feeds public info, mixes it up with some alex jones tier bullshit and delivers it here with an air of pretentious mystique that faggy larpers love. It used to be that we would just ignore this faggot, and he went away but now that the board is compromised by boomers, summerfags and the-donald migrants faggots are taking what he has to say at face value. Pol is dead, nu pol killed it and anon5 is simply a symptom of the cancer. Kys, all of you.

[The image is a black and white line drawing of a human face. The person's head is depicted with a large, dome-shaped head, and the face is drawn with a simple, cartoon-like style. The person's eyes are large and appear to be looking directly at the viewer, and the mouth is open, revealing teeth. There is a small, blue line running from the bottom of the mouth to the chin, which could be interpreted as a tear or a small drop. The drawing is simple and lacks shading, giving it a flat and cartoon-like appearance. There are no texts or additional elements in the image. The style of the drawing is reminiscent of a meme or a social media post, often used for humorous or light-hearted purposes.]

It has a wide, smiling mouth and is wearing glasses. The glasses are black with a gold-colored frame. The frog is holding a newspaper with its right hand, and its left hand is resting on its hip. This thread finally broke through the containment script.

Your body not only can survive but actually thrives without ever ingesting a carb or sugar. The high carb and sugar diet that got jewed into us results in out blood sugar spiking like mad and us being hungry all the time hence weight gain. Ever look at a 300+ or even 600+ person and wonder how they go their? It's because they are literally never satisfied they are always feeling like they are starving.

From a jew stand point its beautiful because they made it so these people eat x2 or even x3 or x4 more than they should

>Not too many around that area

A good thing to remember regarding busts/bustmaps is that certain sections are
sanctioned off.

Similar to how the tourist ((traps)) in Mexico don't have public violence in the streets.
>Because the cartels Iron Fist you into the dirt for touching their profits.

The same can be said for these areas.
In the past, some of the LA MDC bust maps were used to find things.

Looking for zones, circles in a crime ridden city that had NO CRIME.

This is a red flag.

Just like how the Feds monitor all transactions over 10K

>They also monitor all transactions just under 10K because many drug dealers will put \$9,999 or \$9,000 in the bank to evade detection.

The character has a large, open mouth with a tongue sticking out, and a pair of eyes that appear to be wide open. The character's hair is styled in two ponytails, one on each side of its head. The character is wearing a blue ribbon around its neck with the text "CUM SULT" written on it. In the bottom right corner of the image, there is a small collection of pills and a pill bottle, suggesting a medical or health-related theme. The background of the image is plain white, which contrasts with the colorful elements in the foreground. At the top of the image, there is a text that reads "MMM Birth Control," which is likely a reference to the birth control method. The text is in a bold, sans-serif font. The overall style of the image is humorous and satirical, with a focus on the use of birth control as a form of self-pleasure.]
